

Kitchen and Bath Reno - GTA kitchen and bathroom guide

### Your goal and the usual pick

#### **Want it calm and seamless**

Match the grout to the tile as closely as you can

#### **Want the tile pattern to pop**

Contrast: dark grout on light tile, or the reverse

#### **Not sure and want a safe pick**

Go one shade darker than the tile

#### **Kitchen floor or busy mudroom**

Mid grey or greige hides crumbs and footprints

#### **Shower or wet wall**

Match closely and ask about stain-resistant or epoxy grout

#### **White kitchen backsplash**

White grout for seamless, charcoal for a modern grid

#### **Natural stone tile**

Test first; some grout pigments can stain porous stone

**Renovating in the GTA? Kitchen and Bath Reno will bring grout samples to your tile.**
